

Help the Ronald McDonald House by collecting soda can pull tabs!

The Regis Social Awareness committee invites you to help our local Ronald McDonald House by collecting aluminum pull tabs from sodas and soup cans.

Collecting pop tabs is a great way to teach kids about philanthropy and the importance of recycling, and raise funds to help children and their families at the same time.

How can something so small help?

Unlike the urban legend states, pop tabs do not support medical treatment of any kind including chemotherapy or dialysis; however, pop tabs do support the operations of Ronald McDonald Houses across the country. This popular fundraiser benefits seriously ill children by helping provide a place for them and their families to stay while they are out of town for medical treatment.

Recycling the tabs generates proceeds to donate to our local Houston Ronald McDonald House. The tabs do not pay for treatment or night stays - only house operations. In the past, RM houses have collected enough pop tabs in a year to put \$8,000 toward operational costs. Nice!

Pop tabs are small and convenient to collect. Hundreds of thousands of pop tabs have been collected to benefit Ronald McDonald Houses. Won't you help too?

How can I help?

You can help by collecting pull tabs from any soda cans you consume anywhere you are. You can collect them at home or at the office! Bring them to school in a sealable bag and place them in the collection boxes located in the Lobby of the Milestones building.

Thank you for your help with this easy & worthwhile project!
